

IN THE CLAIMS:

Please amend the claims as follows:

Sub B2
Q²
6. (Amended) A method for producing the transgeneic mollusk according to claim 1, comprising microinjecting into gonad of male and/or female of mollusk a recombinant vector into which a desired foreign gene to be introduced or a nucleic acid containing said foreign gene is inserted; crossing said male and female to produce individuals of first generation; and selecting therefrom (an) individual(s) which express(es) said desired gene.

Sub B3
Q³
7. (Amended) A method for producing the transgeneic mollusk according to claim 1, comprising introducing into unfertilized eggs, fertilized eggs or embryos of a mollusk to be transformed a recombinant vector into which a nucleic acid including a promoter having a promoter activity in said mollusk and said desired gene located at a downstream region of said promoter and functionally linked to said promoter is inserted; developing said unfertilized eggs, fertilized eggs or embryos to individuals; and selecting therefrom (an) individual(s) which express(es) said desired gene.
